Come to Queen Mary

“

Queen Mary say they are investors in people, and that's so true in every sense.

The kind of training, mentoring, coaching and lecturer-student relationship I've had in the one year of studying here proves it. I feel I've been challenged with a responsibility to not only be a graduate of the school, but also to go out and be an investor in other people.

Charles, MSc Global Public Health and Policy, 2019

At Queen Mary University of London, we support students and staff from around the world to push the boundaries of knowledge and achieve the previously unthinkable. Wherever you are from, whatever your background, there is a place for you here.

Leading through research

Queen Mary is one of the UK's leading research-intensive universities. You will be taught by world-class academics whose research directly informs our wide range of postgraduate programmes. It is this environment that makes Queen Mary such an exciting place to undertake your postgraduate study.

Innovative research and teaching

Working closely with industry, government, business, communities and charities, the outcomes of our research are felt around the world, from the communities of east London to the favelas of Rio de Janeiro.

- Queen Mary was ranked fifth in the UK for the quality of research outputs (4* and 3*) in the Research Excellence Framework (latest REF, 2014).
- Eight of our alumni and staff have won a Nobel Prize.
- Queen Mary is in the top ten UK universities for quality of research (*Complete University Guide*).

Russell Group

Queen Mary is a member of the Russell Group, the 24 leading universities in the UK. This distinction recognises our commitment to delivering world-class research, teaching and learning.

A history of social justice

Queen Mary has its roots in four historic institutions that were founded to help the less privileged.

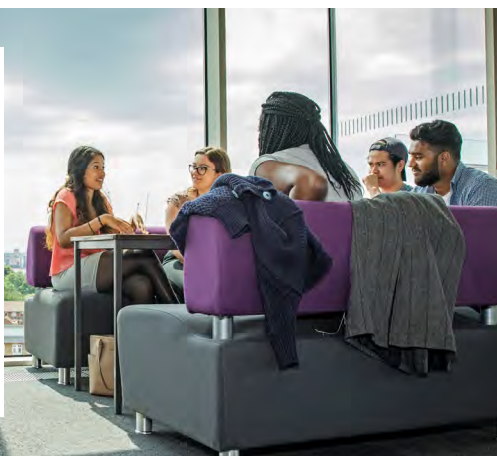

At a time when women and working-class communities faced extreme barriers to education, the People's Palace invited people from all backgrounds to study together, and Westfield College was the first residential college in London for women.

The London Hospital Medical College and St Bartholomew's Hospital Medical College were founded in 1785 and 1843 respectively, to improve the health of impoverished communities in the City and east London.

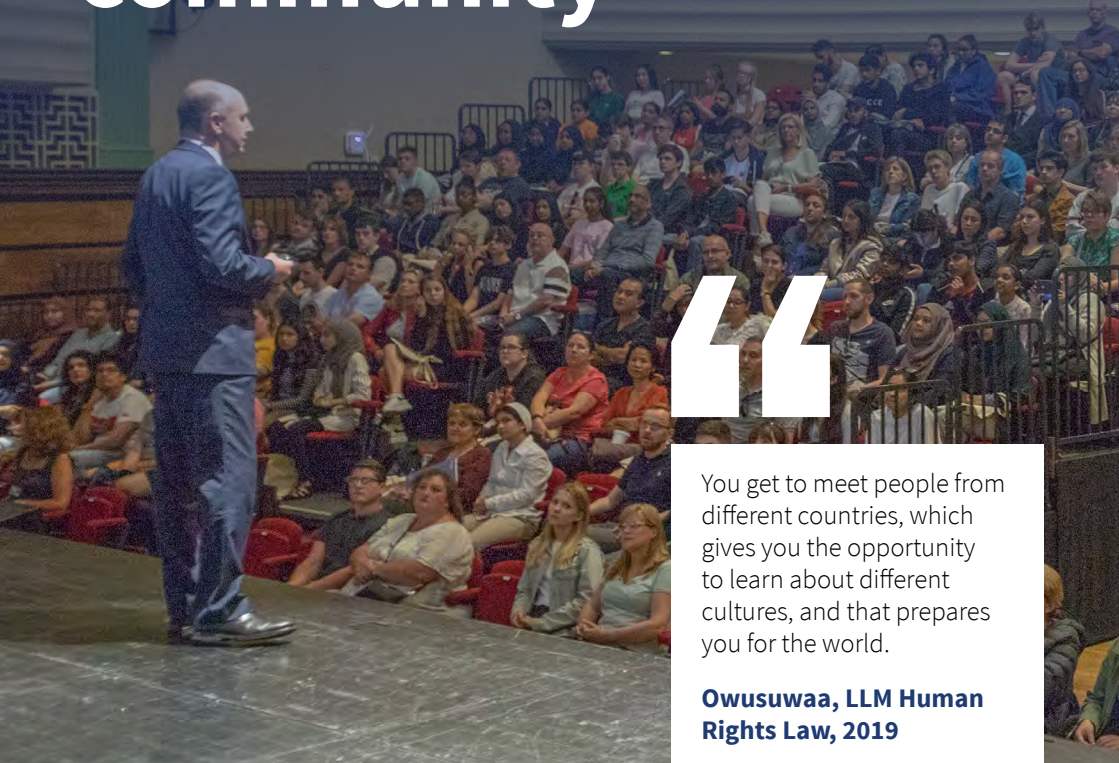

These founders aspired to create places where everyone would have access to the same opportunities in education, recreation and culture, regardless of background.

What we offer

We offer a wide range of full-time, part-time and online learning programmes in the humanities, social sciences, science and engineering, medicine and dentistry. Postgraduate programmes available in 2020 are listed on page 30 or visit qmul.ac.uk/coursefinder

Join our global community

“

You get to meet people from different countries, which gives you the opportunity to learn about different cultures, and that prepares you for the world.

Owusuwaa, LLM Human Rights Law, 2019

With staff and students representing over 160 nationalities, Queen Mary is one of the most diverse higher education institutions in the world. Almost two-thirds of our postgraduates come from outside the UK.

A global education

Queen Mary is in the top 25 most internationally diverse universities in the world, based on the proportion of international staff and students, citations and internationally co-authored papers, (*Times Higher Education*, 2019).

We deliver postgraduate programmes at our London and international sites and through partnerships with institutions across Europe, Asia and the US.

Find out more about our global community:
qmul.ac.uk/global

We know from experience that diversity is a potent catalyst for groundbreaking ideas: in conversations in corridors snatched between lectures; when science and the humanities work together; and between students who grew up around the corner and those from the other side of the world.

The diverse mix of backgrounds, nationalities and cultures will not only challenge you academically, you will make friends and build networks with people from all over the world.

The London advantage

Studying in London is different from studying anywhere else. London is the political, financial and cultural heart of the UK. From West End shows to independent cinemas, world-famous museums to pop-up restaurants, nightclubs to beautiful parks, you will never run out of things to see and do.

As well as living in one of the most culturally exciting cities in the world, you will have many learning and career opportunities.

Queen Mary's largest campus is in east London. We also have campuses in central London. With the City of London to our west, the Queen Elizabeth II Olympic Park to our east, Canary Wharf and Docklands to our south and beautiful Victoria Park to our north, you'll be in the perfect position to get the most out of living in the capital. See page 10 for more about our campuses.

“

London is the quintessential melting pot of cultures and nationalities. It's by far the best place to study; you are a Tube ride or a walk away from the financial hub of the City of London and the rich legal history of the Courts, and you are able to explore all of these amazing experiences while studying at Queen Mary.

Hakim, LLM Commercial and Corporate Law, 2019

Find out more about the advantages of studying in London: **qmul.ac.uk/london-advantage**

Careers

There are many opportunities for work experience and internships while you study, and when you graduate, you will have access to the London job market. See page 12 for how we will support your career prospects during and after your time at Queen Mary.

Finances

Living in London might not be as expensive as you think, especially as Queen Mary provides a wide variety of affordable accommodation. See page 24 for the financial support, including scholarships, that is available to you.

Culture and learning

As a Queen Mary student, you can use the University of London's central facilities, including Student Central and the Senate House Library. In addition, there are countless museums, galleries and libraries, which will support your learning and are often free.

Travel

London is a national and international travel hub, with excellent links to other parts of the UK, Europe and the rest of the world.

WE DID Campus living

Our London campuses are in Zones 1 or 2, so wherever you are based, you have quick and easy access to the capital.

Find out more about our campuses: qmul.ac.uk/city-campuses

It's been a great experience living in university accommodation with people from all over the world. It's so convenient being near to the campus and your classes, as well as all of the other facilities that are there.

Waksh, MSc Accounting and Finance, 2019

Queen Mary has five campuses across central and east London so you can enjoy the security and friendliness of campus life within one of the world's most exciting cities.

Mile End

Set alongside the historic Regent's Canal, our Mile End site is one of the largest residential campuses in the city and home to our new £39m Graduate Centre. Most of our postgraduate taught and postgraduate research students across the humanities, social sciences and science and engineering are based here.

Lincoln's Inn Fields

Most of our postgraduate law students are based at our Lincoln's Inn Fields campus in Holborn, the historic legal centre of London. Located in Zone 1, Lincoln's Inn Fields is near to Covent Garden, famous for the performing arts.

Whitechapel

Many of our postgraduate taught and postgraduate research medicine and dentistry students are based on our Whitechapel campus, next to the Royal London Hospital. Whitechapel is a vibrant area, famous for its street markets, art, culture and food. The campus has a strong sense of community with its own library, and state-of-the-art labs at the Blizard Institute.

West Smithfield

Our West Smithfield campus in Farringdon includes St Bartholomew's Hospital (Barts) and the West Smithfield Medical Library, and is home to cardiovascular, cancer, epidemiology and public health research facilities. Some of our postgraduate taught medical students are based here.

Charterhouse Square

We have a campus at Charterhouse Square for postgraduate taught and postgraduate research medical students. Close to the Barbican in the City of London, this is

home to the Barts Cancer Institute, the William Harvey Research Institute and the Wolfson Institute of Preventive Medicine. It's also near to the Barbican Arts Centre, the Museum of London and other famous London landmarks.

Accommodation

Queen Mary provides accommodation for postgraduate students across our campuses. We can also provide advice on a range of alternative housing, such as renting, private halls or homestay.

Aspire Point, opened in September 2018, is home to 445 Queen Mary postgraduate students. With stunning views over London and the 2012 Olympic Park, Aspire Point provides affordable living and study space in Stratford, east London. We also have an additional 300 rooms for postgraduate students, available in halls owned by our preferred partner providers. These halls are for students of all disciplines apart from medicine and dentistry students, who have their own dedicated halls of residence.

Email: residences@qmul.ac.uk

residences.qmul.ac.uk

Your career

Careers success

93% of our postgraduates are in work and/or study six months after graduation.

84% of those in work/study are in highly skilled work/study (most recent DLHE Survey of 16/17 leavers)*

**These figures are for UK-domiciled students only.*

Our Careers and Enterprise team are here to help you get the skills and work experience you need for today's competitive job market. Our team can support your career planning and connect you to employers through careers fairs, sector tasters, internships and our online vacancy board.

Our location means that we have all of London's industries on our doorstep and we have links to employers across the capital.

Careers support

The services we offer to support your career development include:

- one-to-one appointments to help you with your career direction, give feedback on job applications, offer insight into the job market and prepare you for interviews
- workshops to support your career development and job hunting
- employer events attracting recruiters and alumni from a rich range of sectors
- support for finding internships and part-time jobs
- specialist careers consultants to support PhD students through appointments, events and workshops.

Enterprise support

Many students and graduates across Queen Mary start or grow their own business or social venture each year. In 2018/19, Queen Mary gave out £45,000 in seed funding to help students start new, or grow existing businesses.

We support student entrepreneurs through:

- funding awards (of £500, £5,000 or £10,000)
- one-to-one advice and workshops
- QIncubator: an 8-week entrepreneur training programme
- QHacks: three-day entrepreneur bootcamps.

Find out more about how we can support your career: careers.qmul.ac.uk

Your career

I knew that studying in London would give me an advantage in getting a job but the dedicated Careers team at Queen Mary have given me even more opportunities. They've helped me write my CV and cover letters, given me advice about my LinkedIn profile and put on networking events with alumni that were really useful.

Maciej, MSc Investment and Finance, 2019

In 2018/19, we arranged work experience for over 1,000 of our students in a rich range of sectors and roles – from research internships to consultancy for start-ups.

Find out more about
how we can support
your career: **careers.**
qmul.ac.uk

Support for international students

We offer a programme of support for international students throughout the year, which involves talks on how to find graduate work in the UK and an International Students Week featuring external speakers. Students can search for jobs across the world with our international jobs database, as well as browse our guides on getting work in particular markets. All students have access to a rich programme of employer events and career development workshops, running across the University year.

Support after graduation

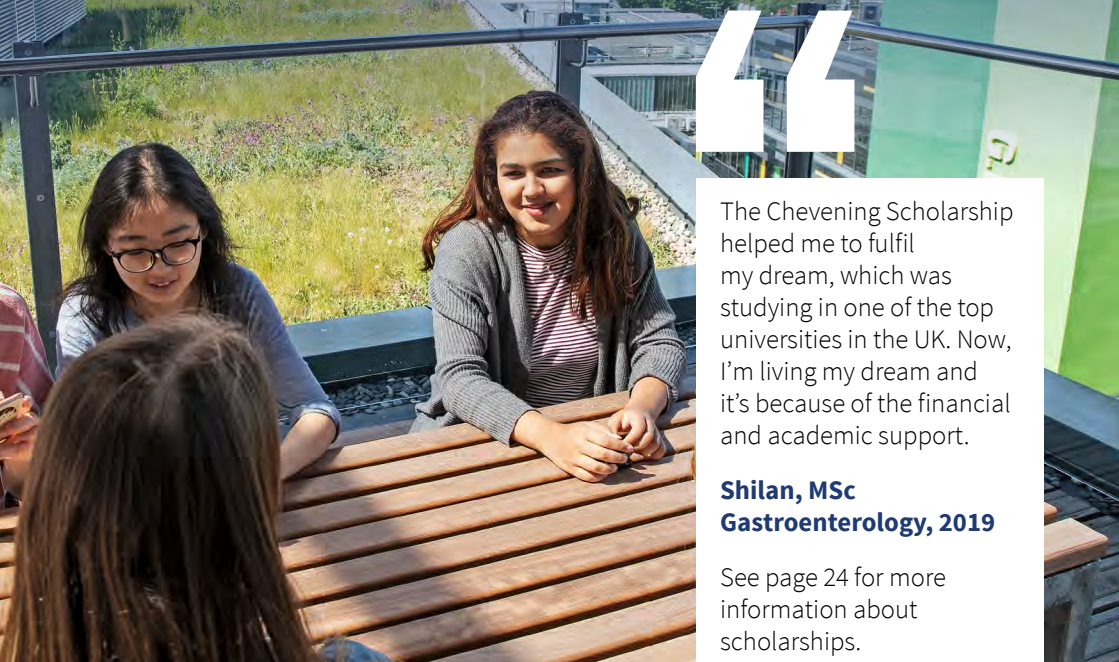

Our careers support continues after you leave Queen Mary. All graduates have access to our Careers and Enterprise services for two years after graduation. You can:

- have free one-to-one appointments in person, over the phone or via Skype
- attend our employer events
- use our online psychometric testing and mock-interview software
- access our jobs board – over 3,000 employers uploaded vacancies in 2018/19.

Queen Mary graduates have gone on to work in these organisations:

- Accenture
- Allen & Overy
- Arup
- AstraZeneca
- Baker McKenzie
- Barts Health NHS Trust
- European Central Bank
- Fintech Innovation Lab
- Google
- HSBC
- IBM
- Institute of Cancer Research
- Institute of Dentistry
- J.P. Morgan
- Jaguar Land Rover
- Lloyds Banking Group
- Natural History Museum
- Penguin
- PwC
- Queen Mary
- Save the Children
- Shell
- Stella McCartney
- Thales
- Thomson Reuters
- World Economic Forum
- ...and many more!

International students

The Chevening Scholarship helped me to fulfil my dream, which was studying in one of the top universities in the UK. Now, I'm living my dream and it's because of the financial and academic support.

**Shilan, MSc
Gastroenterology, 2019**

See page 24 for more information about scholarships.

We support students from around the world to join our global community at Queen Mary. Almost two-thirds of our postgraduate students come from outside of the UK, which makes Queen Mary an exciting place to study for people from all backgrounds and nationalities.

We will help you every step of the way from supporting your application, helping you with practical arrangements such as visas, funding and accommodation, and making sure you have the necessary English language skills.

Support services

We provide a network of support services to make sure that you get the most out of your experience at Queen Mary.

Before you apply

We provide in-country meetings, admissions advice and online chat sessions with current students and staff and frequent webinars.

Before you arrive

We provide pre-departure briefings, an airport collection service, frequent webinars and our International Welcome Programme. We also offer advice about accommodation, scholarships, funding, Summer School, visas and English language requirements.

While you are here

We provide ongoing support about accommodation, studying, careers and funding.

Pre-masters graduate diplomas

Our pre-masters programmes are for international and EU students who do not meet the academic and/or language requirements for masters study, or those who want to switch disciplines from undergraduate to postgraduate. They give you the academic, language and study tools needed for a full degree, including subject-specific knowledge, research skills, academic writing and speaking, and study skills.

We offer two pre-masters programmes: Graduate Diploma in Economics and Finance and the Graduate Diploma in Humanities and Social Sciences.

Both our pre-masters programmes are taught at our Mile End campus.

For more information, visit:

qmul.ac.uk/premasters

Pre-sessional language programmes

Our pre-sessional programmes are for international and EU students who want to improve their English language and academic study skills before enrolling onto their chosen postgraduate degree. They run over the summer and offer a stimulating learning experience in preparation for further study. For more information, visit:

qmul.ac.uk/language

In-sessional programmes

We offer a wide range of English language and study skills modules to help all students improve the quality of their academic essays and assignments. These free five or ten-week modules help students develop transferable skills, improving their employability potential. PhD students can attend modules on aspects of research, which accrue Continuing Professional Development (CPD) points. For more information, visit: qmul.ac.uk/slif/language-centre/in-sessionals/

Contact

Get in touch with our Global Engagement team:

Tel: +44 (0)20 7882 6530

Email: globalengagement@qmul.ac.uk

qmul.ac.uk/international-students

We have representatives in over 50 countries who help students to apply for Queen Mary's postgraduate programmes. Staff from the university regularly travel overseas and across the UK.

For more information and a list of events visit: qmul.ac.uk/postgraduate/meet-us

World class sport and facilities

Queen Mary offers exceptional facilities and activities to make sure that you get the most out of your experience as a postgraduate student with us. These help to create the close-knit community that you will become part of during your time here.

Exceptional facilities

We have invested £39m in creating a new Graduate Centre for our postgraduate students. With stunning views across the City from its top floor, this impressive space houses a 200-seat lecture theatre, seminar rooms, café and a landscaped courtyard. It also offers 24-hour flexible study areas tailored to the needs and working patterns of postgraduates.

Sport at the Students' Union

Sport at Queen Mary is an important part of student life. We run a comprehensive sports programme offering a range of opportunities and experiences for everyone to get involved with, including;

- Qmotion is our on-campus Sport and Fitness Centre. It offers excellent facilities, 40+ exercise classes a week and the opportunity to access a free personalised gym programme every six weeks.
- Our 60 sports clubs and the Students' Union Sport Leagues are a great social experience and an excellent way to develop your sporting skills. Many of our teams use facilities at the nearby Olympic Park, home of the 2012 Olympics, for their training and matches.
- Our Campus Games programme gives you the chance to represent your School throughout the year, through a range of sporting activities.
- The Elite Athlete programme supports students so they can balance a professional sporting career with a world-class education.
- Get Active lets you take part in sport in a fun, affordable and relaxed environment.
- Through our award-winning Community Sport programme, you can act as a coach, official or mentor in a variety of sports projects in the local area.

Students' Union

The Students' Union supports you throughout your time at University. It offers over 300 diverse societies and sports clubs, a volunteering programme, academic advice service and provides education and wellbeing support. The Students' Union also runs social spaces, a Sport & Fitness Centre, shops, cafés and bars where you can meet up with friends, take a break or grab something to eat. There is a packed programme of events, including dedicated events for postgraduate students.

Each year, postgraduate representatives are elected to run activities and events, as well as ensuring the postgraduate voice is heard and represented.

qmsu.org

Libraries

Our 24-hour Library in Mile End recently underwent a £1.5m refurbishment, providing even more study and computer spaces.

Medical and dental students can make use of the specialist medical libraries at Whitechapel and West Smithfield (site of Barts hospital). All our students have access to the University of London's Senate House Library in Bloomsbury.

Find out about the sporting opportunities available to you:
qmsu.org/sportandfitness/

Support services

We want you to make the most out of your time at Queen Mary and have the best student experience possible. From financial guidance to mentoring schemes, we provide advice, counselling and specialist services to help you get the most out of your time here.

Advice and Counselling Service

The Advice and Counselling Service offers a range of free and confidential services to help all Queen Mary students with financial, welfare, legal and also emotional and psychological issues. This includes advice on visa and immigration issues.

Tel: +44 (0)20 7882 8717

welfare.qmul.ac.uk

Support with your finances

Our specialist Welfare Advisers can help you identify any funding you may be eligible for. They can provide information on the Student Finance application process, tuition fees and living costs, bursaries and scholarships, and what to do if you are having financial difficulties. See page 24 for more on funding and financial support.

Tel: +44 (0)20 7882 8717

qmul.ac.uk/pg-funding

Disability and dyslexia support

The Disability and Dyslexia Service (DDS) offers support for all students with disabilities, specific learning difficulties and mental health issues at Queen Mary.

Tel: +44 (0)20 7882 2756

dds.qmul.ac.uk

School support

Every school at Queen Mary has a dedicated Student Support Contact who can support you in your studies. Within your chosen school, there will be a team of people who will help ensure you achieve

your goals academically and can support you with any personal issues.

We also have dedicated support if you are a refugee, have been in local authority care or are estranged from your family or carer.

You can even get in touch with us before you've applied to Queen Mary if you want support with planning your finances and practical aspects of student life.

Go to: www.qmul.ac.uk/postgraduate/support-for-students/

PhD study

Many of our masters students go on to PhD study with us. Our academics supervise a very broad range of thesis topics. Through close individual supervision and a substantial schedule of research training, you will be supported in both completing your project and developing as an independent researcher.

“

After getting my masters degree, I knew I wanted to explore more the research world. Going for a PhD seems the natural continuation of my chemistry studies. London – and Queen Mary in particular – offered the additional opportunity to study in an international and research-focused institution.

My PhD experience at Queen Mary has been challenging and exciting. PhD students get to work in a highly motivational environment. The effort we put in our research projects usually pays off by having our work published in scientific journals or by going to international conferences to show our research. I attended the international co-ordination chemistry conference in Japan and it was an amazing experience!

The best thing about studying here is definitely the multicultural and vibrant environment. If at times doing a PhD can feel stressful and demanding, I know I can always find the support I need from my supervisor and my colleagues here at Queen Mary.

Martina, PhD in Chemistry

If you are interested in studying a PhD at Queen Mary, we recommend that you find a member of staff with interests in your area or find an existing research group.

To do this and find out more about our research degree programmes, go to: **qmul.ac.uk/phd**

Doctoral College

As a PhD student at Queen Mary, you will become a member of our Doctoral College, a vibrant community of more than 1,800 postgraduates pursuing pioneering research across a wide range of academic disciplines. The Doctoral College oversees the life cycle of your PhD, supporting you through your application, enrolment, the development of your research, submission of your thesis, and on to the next steps of your career.

As a member of Queen Mary's Doctoral College, you will have access to a wide range of training and development opportunities, funding and financial advice for research activities, and support in networking and wellbeing.

For further information about PhD study at Queen Mary, please see: qmul.ac.uk/postgraduate/research

Funding and financial support

Over the past two years, Queen Mary:

- awarded **£22m** to over **2,500** postgraduate students
- **invested over £3m** in postgraduate taught students.

Funding

We want to attract the best students to Queen Mary, regardless of their financial situation. Every year we offer a range of scholarships for academically excellent students.

In 2018/19, we awarded 60 Queen Mary scholarships worth a total of £1,100,000 to postgraduate taught students across science and engineering, economics and finance, and law. We awarded over 1,000 Queen Mary scholarships worth a total of over £9m to postgraduate research students.

We also co-funded 85 Chevening and five Commonwealth Scholarships, which are specifically for international students.

There are a number of funding options available to help you finance your postgraduate study. These include a package of competitive Queen Mary scholarships in a range of subject areas, as well as external sources of funding.

Tuition fees

Tuition fees for UK, EU and international students are listed on each course's webpage. Please visit qmul.ac.uk/coursefinder and search for the course you are interested in.

Queen Mary Alumni Loyalty Award

If you are a Queen Mary graduate, you may be eligible for our Alumni Loyalty Award for masters study (£1,000).

Funding and financial support

Funding for international students

Our partnerships with external funding organisations such as Chevening, the Commonwealth Scholarship Commission and numerous governments around the world mean that we can support our international students through scholarships and funding.

Postgraduate Masters Loan

The Government's Postgraduate Masters Loan offers up to £10,906 per programme to English students or EU nationals studying in England. International students are not eligible for this loan.

The loan is available for any full or part-time taught masters programme as well as Masters of Research (MRes), though you won't normally be eligible if you already hold a masters degree or higher-level qualification. Separate loans are available if you normally live in Scotland, Wales or Northern Ireland. Loan amounts and criteria differ; for further information visit Student Awards Agency Scotland, Student Finance Wales or Student Finance NI.

“

Without the loan I wouldn't have been able to study full time and perhaps not at all. I did get some part-time work, but having the loan meant that I haven't had to worry about working too many hours and can make studying my primary focus. The ability to pay it back like an undergraduate loan is important too. It means it's not going to burden me with payments until I can afford those payments.

William, MSc Computing and Information Systems, 2018

Postgraduate Doctoral Loan

You can borrow up to £25,000 with the Government's Postgraduate Doctoral Loan. It is available for any taught or research-based postgraduate doctoral qualification, including part-time and distance learning. If you already hold a doctoral degree, you won't normally be eligible for this loan and other eligibility criteria will also apply.

Further information

Find out more about how to apply, eligibility criteria and repayments for loans:

- The UK Government's website: gov.uk/funding-for-postgraduate-study
- Queen Mary's Postgraduate Funding advice guide: qmul.ac.uk/pg-funding
- Queen Mary's Funding a Masters webpages: qmul.ac.uk/masters-funding
- Queen Mary's Funding a PhD webpages: qmul.ac.uk/phd-funding
- Queen Mary's scholarships webpage: qmul.ac.uk/scholarships
- Guidance on budgeting: qmul.ac.uk/budget

How to apply and application deadlines

You can find full details of how to apply at:
qmul.ac.uk/postgraduate/howtoapply

We encourage you to apply as early as possible to allow enough time for your application to be considered. In particular, if you are seeking financial support from Research Councils or other award-giving bodies, you are advised to apply early. If a course becomes full, we will no longer be able to consider applications. We update the relevant course pages on our website as soon as a programme becomes full. You can check for general application deadlines via the following links here:

Deadlines for Postgraduate taught:
qmul.ac.uk/postgraduate/taught/deadlines/

Deadlines for Postgraduate research:
qmul.ac.uk/postgraduate/research/deadlines/

Please note some courses may have earlier deadlines – if this is the case the earlier deadline will be published on the individual course pages on our website, which can be accessed from here:
qmul.ac.uk/postgraduate/

Help with overseas applications

If you are applying from overseas, our authorised local representatives can help you with your application. They can guide you through the application process and upload documents online. This service is completely free of charge. You can find details of in-country representatives on your country page. You can also find information about the equivalent entry requirement qualifications for your country.

Find details about our in-country representatives at: qmul.ac.uk/international-students/countries/

If your country isn't listed, contact the Global Engagement team.

Entry requirements

Most of our masters programmes require an upper second class Honours Degree or equivalent in a related subject.

Our PhD programmes usually require a minimum of an upper second class Honours Degree or equivalent in a related subject. Some PhD programmes may require a postgraduate-level qualification for entry.

Please use our programme finder to check the entry requirements for the course you are interested in: qmul.ac.uk/postgraduate

Law conversion programmes

The Senior Status LLB (two years) is a qualifying law degree suitable for non-law graduates. It is an accelerated version of the

traditional three-year route and is popular with students considering a career in law or with an academic interest in the subject.

Fast-track medicine programmes

Our Graduate Entry Medicine MBBS (four years) is designed to be a fast-track route for graduates who obtained good degrees in science or health-related subjects. The first year of study is based on the first two years of the five-year MBBS programme.

Trauma Sciences	MSc	PT, OL	Blizard Institute, School of Medicine and Dentistry
Trauma Sciences (Military and Humanitarian)	MSc	PT, OL	Blizard Institute, School of Medicine and Dentistry
Tuberculosis	PGCert	PT, OL	Blizard Institute, School of Medicine and Dentistry
Physics and Astronomy			
Astronomy and Astrophysics	PGCert	PT	School of Physics and Astronomy
Astrophysics	MSc	FT, PT	School of Physics and Astronomy
Physics: Condensed Matter Physics	MSc	FT	School of Physics and Astronomy
Physics (EuroMasters)	MSc	FT	School of Physics and Astronomy
Physics: Particle Physics	MSc	FT	School of Physics and Astronomy
Physics: Theoretical Physics	MSc	FT	School of Physics and Astronomy

Politics and International Relations			
International Business and Politics	MSc	FT, PT	School of Politics and International Relations
International Public Policy	MSc, PGCert, PGDip	FT, PT, OL	School of Politics and International Relations
International Relations	MA, MRes, PGCert, PGDip	FT, PT, OL	School of Politics and International Relations
International Relations (Paris)	MA, PGCert, PGDip	FT	School of Politics and International Relations
Public Policy	MRes, MSc	FT, PT	School of Politics and International Relations

*All new courses are required to undergo a two-stage internal review and approval process before being advertised to students. Courses that are marked “subject to approval” have successfully completed the first stage of this process. Applications are welcome but we will not make formal offers for these courses until they have passed this second (and final) stage.

Accessible formats

Any section of this publication is available upon request in accessible formats (large print, audio, etc). For further information and assistance, please contact: designandbranding@qmul.ac.uk

Terms and conditions

1 Rules and regulations

The offer of, and acceptance of, a place at Queen Mary is made on the understanding that you undertake to observe the terms and conditions of our Academic Regulations and related policies. These cover, among other things, payment of fees, attendance at classes, submission of work, attendance at examinations, student discipline, complaints procedure, freedom of speech and equal opportunities policies. To read the Academic Regulations and related policies, visit:

arcs.qmul.ac.uk/policy

2 Changes to our programmes

We will aim to deliver your programme so that it closely matches the way in which it has been described to you by Queen Mary, especially at the point that you accept your offer. However, it is important to understand that there are circumstances in which we may subsequently change aspects of your programme. Our programmes are delivered within a dynamic, academic community by staff who are actively engaged in research. In this context, we might make changes so that our students can learn from the latest academic research. We also value student feedback and provide regular opportunities for our students to comment on the content of their programme. We may therefore alter your programme in response to this dialogue with current students. Other circumstances which can lead to changes include: staff changes, which can lead to new modules being offered, modules being withdrawn, or a change to who teaches the programme; changes made in response to new requirements from external professional or statutory bodies; or changes to the way in which universities are funded, which might lead to changes in the availability of some student services, for example.

In the unlikely event that we discontinue a programme of study, or change it significantly before it begins, we will inform applicants holding an offer of a place at

the earliest opportunity and will endeavour to offer a suitable alternative programme at Queen Mary. We will also ensure that these changes are reflected on our website as soon as possible.

3 Liability for damage to person or property

Queen Mary does not accept responsibility or liability for any damage to students' property, the transfer of computer viruses to students' equipment, or personal injury to students caused by the misuse or unauthorised use of Queen Mary equipment, or owing to students not taking due care while on Queen Mary premises, or engaged in Queen Mary activities.

4 Accuracy of information in this prospectus

Queen Mary has made reasonable efforts to ensure that the information provided in this prospectus is both helpful and accurate at the time of going to print. However, this information is subject to change over time. For this reason, it is important that you check the website for the most up-to-date information (qmul.ac.uk) or contact us using the details contained within the document.

Applicants are strongly advised to check the course finder on the Queen Mary website for up-to-date entry requirements before submitting their application: qmul.ac.uk/postgraduate/coursefinder

Read our terms and conditions in full at: qmul.ac.uk/prospective/termsandconditions

This prospectus was manufactured using UPM Fine Offset sourced from an ISO 14001 certified mill, where the pulp was bleached using an Elemental Chlorine Free (ECF) process. The materials followed a Chain-of-Custody scheme, made of materials from well-managed, FSC®-certified forests and other controlled sources.

For general enquiries about the admissions process for taught masters programmes:

Tel: +44 (0)20 7882 5533

Email: pgtadmissions@qmul.ac.uk

For general enquiries about the admissions process for research degree programmes:

Tel: +44 (0)20 7882 5533

Email: researchadmissions@qmul.ac.uk

If you require this publication in a different accessible format we will endeavour to provide this, where possible. For further information and assistance, please contact: designandbranding@qmul.ac.uk
