---

2021

A Comparison of Genetic Representations and Initialisation Methods for the Multi-objective Shortest Path Problem on Multigraphs.
Beke L, Weiszer M and Chen J. *Sn Computer Science vol. 2, (3).*Editors: EkÃ¡rt A and Esparcia-AlcÃ¡zar AI. *Springer Science and Business Media Llc.*

Real-Time Four-Dimensional Trajectory Generation Based on Gain-Scheduling Control and a High-Fidelity Aircraft Model.
Obajemu O, Mahfouf M, Maiyar LM, Al-Hindi A, Weiszer M and Chen J. *Engineering.*

2020

Aircraft taxi time prediction: Feature importance and their implications.
Wang X, Brownlee AEI, Woodward JR, Weiszer M, Mahfouf M and Chen J. *Transportation Research Part C: Emerging Technologies vol. 124,.Elsevier.*

Multi-objective routing and scheduling for airport ground movement.
Weiszer M, Burke EK and Chen J. *Transportation Research Part C: Emerging Technologies vol. 119,.Elsevier.*

The feasibility of Follow-the-Greens for 4-dimensional trajectory based airport ground movements.
Tianci Z, Michal W and Chen J. *Transportation Research Part C: Emerging Technologies.Elsevier.*

2018

An online speed profile generation approach for efficient airport ground movement.
Zhang T, Ding M, Zuo H, Chen J, Weiszer M, Qian X and Burke EK. *Transportation Research Part C: Emerging Technologies vol. 93, 256-272.*

A Fuzzy Approach to Addressing Uncertainty in Airport Ground Movement Optimisation.
Brownlee AEI, WEISZER M, CHEN J, Ravizza S, WOODWARD JR and BURKE EK. *Transportation Research Part C: Emerging Technologies.Elsevier.*

Preference-based evolutionary algorithm for airport surface operations.
WEISZER M, CHEN J, stewart P and Zhang X. *Transportation Research Part C: Emerging Technologies.Elsevier.*

2016

Toward a more realistic, cost-effective, and greener ground movement through active routing: A multiobjective shortest path approach.
Chen J, Weiszer M, Locatelli G, Ravizza S, Atkin JA, Stewart P and Burke EK. *Ieee Transactions On Intelligent Transportation Systems vol. 17, (12) 3524-3540.*

Toward a More Realistic, Cost-Effective, and Greener Ground Movement Through Active Routing - Part I: Optimal Speed Profile Generation.
Chen J, Weiszer M, Stewart P and Shabani M. *Ieee Transactions On Intelligent Transportation Systems vol. 17, (5) 1196-1209.*

2015

A real-time Active Routing approach via a database for airport surface movement.
Weiszer M, Chen J and Stewart P. *Transportation Research Part C: Emerging Technologies vol. 58, 127-145.*

An integrated optimisation approach to airport ground operations to foster sustainability in the aviation sector.
Weiszer M, Chen J and Locatelli G. *Applied Energy vol. 157, 567-582.*

2013

A regression model for prediction of pipe conveyor belt contact forces on idler rolls.
Molnr V, Fedorko G, Stehlíkov B, Michalik P and Weiszer M. *Measurement: Journal of The International Measurement Confederation vol. 46, (10) 3910-3917.*
