2020

A three-phase interpenetrating continua approach for wave and porous structure interaction.

Yang L, Buchan A, Pavlidis D, Jones A, Smith P, Sakai M and Pain C. *Engineering Computations (Swansea, Wales)*.

2019

Scalable angular adaptivity for Boltzmann transport.

Dargaville S, Buchan AG, Smedley-Stevenson RP, Smith PN and Pain CC. *Journal of Computational Physics* 109124-109124. Elsevier Bv.

Angular adaptivity with spherical harmonics for Boltzmann transport.

Dargaville S, Buchan AG, Smedley-Stevenson RP, Smith PN and Pain CC. *Journal of Computational Physics* vol. 397, 108846-108846. Elsevier Bv.

A combined immersed body and adaptive mesh method for simulating neutron transport within complex structures.

Buchan AG, Dargaville S and Pain CC. *Annals of Nuclear Energy* vol. 134, 88-100. Elsevier Bv.

An angular reduced order model for radiative transfer in non grey media.

BUCHAN AG. *Journal of Quantitative Spectroscopy and Radiative Transfer*. Elsevier.

A Reduced Order Model for the Fast Predictions of Reactivity and Neutron Distributions within Reactor Cores.

Buchan A, Jewer S and Navon IM. *International Conference On Computational & Experimental Engineering and Sciences* vol. 22, (4) 179-179.

2018

A Haar Wavelet Method for Angularly Discretising the Boltzmann Transport Equation.

Adigun BJ, BUCHAN AG, Adam A, Dargaville S, Goffin MA and Pain CC. *Progress in Nuclear Energy*. Elsevier.

Reactor simulators and reduced order modeling.

Heaney CE, Pain CC, Buchan AG and Jewer S. *Nuclear Future* vol. 14, (3) 49-54.

2017

A goal-based angular adaptivity method for thermal radiation modelling in non grey media.

Soucasse L, Dargaville S, Buchan AG and Pain CC. *Journal of Quantitative Spectroscopy and Radiative Transfer* vol. 200, 215-224.

Adaptive angle and parallel multigrid for deterministic shielding problems.

Dargaville S, Buchan A, Smedley-Stevenson R, Smith P and Pain C. *Epj Web of Conferences* vol. 153,.

2016

An efficient space-angle subgrid scale discretisation of the neutron transport equation.

Buchan AG and Pain CC. *Annals of Nuclear Energy* vol. 94, 440-450.

2015

Solving the Boltzmann transport equation with multigrid and adaptive space/angle discretisations.

Dargaville S, Goffin MA, Buchan AG, Pain CC, Smedley-Stevenson RP, Smith PN and Gorman G. *Annals of Nuclear Energy* vol. 86, 99-107.

Adaptive Haar wavelets for the angular discretisation of spectral wave models.

Adam A, Buchan AG, Piggott MD, Pain CC, Hill J and Goffin MA. *Journal of Computational Physics* vol. 305, 521-538.

Non-intrusive reduced order modelling of the Navier-Stokes equations.

Xiao D, Fang F, Buchan AG, Pain CC, Navon IM and Muggeridge A. *Computer Methods in Applied Mechanics and Engineering* vol. 293, 522-541.

A POD reduced order model for resolving angular direction in neutron/photon transport problems.

Buchan AG, Calloo AA, Goffin MG, Dargaville S, Fang F, Pain CC and Navon IM. *Journal of Computational Physics* vol. 296, 138-157.

2014

Goal-based angular adaptivity applied to a wavelet-based discretisation of the neutral particle transport equation.

Goffin MA, Buchan AG, Dargaville S, Pain CC, Smith PN and Smedley-Stevenson RP. *Journal of Computational Physics* vol. 281, 1032-1062.

Reduced order modelling of an unstructured mesh air pollution model and application in 2D/3D urban street canyons.

Fang F, Zhang T, Pavlidis D, Pain CC, Buchan AG and Navon IM. *Atmospheric Environment* vol. 96, 96-106.

Adjoint eigenvalue correction for elliptic and hyperbolic neutron transport problems.

Merton SR, Smedley-Stevenson RP, Pain CC and Buchan AG. *Progress in Nuclear Energy* vol. 76, 1-16.

Goal-based angular adaptivity applied to the spherical harmonics discretisation of the neutral particle transport equation.

Goffin MA, Buchan AG, Belme AC, Pain CC, Eaton MD, Smith PN and Smedley-Stevenson RP. *Annals of Nuclear Energy* vol. 71, 60-80.

An immersed body method for coupled neutron transport and thermal hydraulic simulations of PWR assemblies.

Jewer S, Buchan AG, Pain CC and Cacuci DG. *Annals of Nuclear Energy* vol. 68, 124-135.

Non-linear model reduction for the Navier-Stokes equations using residual DEIM method.

Xiao D, Fang F, Buchan AG, Pain CC, Navon IM, Du J and Hu G. *Journal of Computational Physics* vol. 263, 1-18.

Reduced order borehole induction modelling.

Ardjmandpour N, Pain CC, Fang F, Buchan AG, Singer J, Player MA, Xu X, Navon IM and Carter J. *International Journal of Computational Fluid Dynamics* vol. 28, (3-4) 140-157.

The immersed body supermeshing method for modelling reactor physics problems with complex internal structures.

Buchan AG, Farrell PE, Gorman GJ, Goddard AJH, Eaton MD, Nygaard ET, Angelo PL, Smedley-Stevenson RP, Merton SR and Smith PN. *Annals of Nuclear Energy* vol. 63, 399-408.

2013

A POD reduced-order model for eigenvalue problems with application to reactor physics.

Buchan AG, Pain CC, Fang F and Navon IM. *International Journal For Numerical Methods in Engineering* vol. 95, (12) 1011-1032.

Minimising the error in eigenvalue calculations involving the Boltzmann transport equation using goal-based adaptivity on unstructured meshes.

Goffin MA, Baker CMJ, Buchan AG, Pain CC, Eaton MD and Smith PN. *Journal of Computational Physics* vol. 242, 726-752.

Goal based mesh adaptivity for fixed source radiation transport calculations.

Baker CMJ, Buchan AG, Pain CC, Tollit BS, Goffin MA, Merton SR and Warner P. *Annals of Nuclear Energy* vol. 55, 169-183.

An adjoint-based method for improving computational estimates of a functional obtained from the solution of the Boltzmann Transport Equation.

Merton SR, Buchan AG, Pain CC and Smedley-Stevenson RP. *Annals of Nuclear Energy* vol. 54, 1-10.

Multimesh anisotropic adaptivity for the Boltzmann transport equation.

Baker CMJ, Buchan AG, Pain CC, Farrell PE, Eaton MD and Warner P. *Annals of Nuclear Energy* vol. 53, 411-426.

Simulated spatially dependent transient kinetics analysis of the Oak Ridge Y12 plant criticality excursion.

Buchan AG, Pain CC, Tollit BS, Gomes JLMA, Eaton MD, Gorman GJ, Cooling CM, Goddard AJH, Nygaard ET, Angelo PL and Smith PN. *Progress in Nuclear Energy* vol. 63, 12-21.

Non-linear Petrov-Galerkin methods for reduced order modelling of the Navier-Stokes equations using a mixed finite element pair.

Xiao D, Fang F, Du J, Pain CC, Navon IM, Buchan AG, ElSheikh AH and Hu G. *Computer Methods in Applied Mechanics and Engineering* vol. 255, 147-157.

2012

A sub-grid scale finite element agglomeration multigrid method with application to the Boltzmann transport equation.

Buchan AG, Pain CC, Umpleby AP and Smedley-Stevenson RP. *International Journal For Numerical Methods in Engineering* vol. 92, (3) 318-342.

Simulated transient dynamics and heat transfer characteristics of the water boiler nuclear reactor - SUPO - with cooling coil heat extraction.

Buchan AG, Pain CC, Goddard AJH, Eaton MD, Gomes JLMA, Gorman GJ, Cooling CM, Tollit BS, Nygaard ET, Glenn DE and Angelo PL. *Annals of Nuclear Energy* vol. 48, 68-83.

Quadratic inner element subgrid scale discretisation of the Boltzmann transport equation.

Baker CMJ, Buchan AG, Pain CC, Tollit B, Eaton MD and Warner P. *Annals of Nuclear Energy* vol. 45, 124-137.

2011

Riemann boundary conditions for the Boltzmann transport equation using arbitrary angular approximations.

Buchan AG, Merton SR, Pain CC and Smedley-Stevenson RP. *Annals of Nuclear Energy* vol. 38, (5) 1186-1195.

2010

The Inner-Element Subgrid Scale Finite Element Method for the Boltzmann Transport Equation.

Buchan AG, Candy AS, Merton SR, Pain CC, Hadi JI, Eaton MD, Goddard AJH, Smedley-Stevenson RP and Pearce GJ. *Nuclear Science and Engineering* vol. 164, (2) 105-121.

2008

Optimal discontinuous finite element methods for the Boltzmann transport equation with arbitrary discretisation in angle.

Merton SR, Pain CC, Smedley-Stevenson RP, Buchan AG and Eaton MD. *Annals of Nuclear Energy* vol. 35, (9) 1741-1759.

Linear and Quadratic Hexahedral Wavelets on the Sphere for Angular Discretizations of the Boltzmann Transport Equation.

Buchan AG, Pain CC, Eaton MD, Goddard AJH and Smedley-Stevenson RP. *Nuclear Science and Engineering* vol. 159, (2) 127-152.

Chebyshev spectral hexahedral wavelets on the sphere for angular discretisations of the Boltzmann transport equation.

Buchan AG, Pain CC, Eaton MD, Smedley-Stevenson RP and Goddard AJH. *Annals of Nuclear Energy* vol. 35, (6) 1098-1108.

Self-Adaptive Spherical Wavelets for Angular Discretizations of the Boltzmann Transport Equation.

Buchan AG, Pain CC, Eaton MD, Smedley-Stevenson RP and Goddard AJH. *Nuclear Science and Engineering* vol. 158, (3) 244-263.

2005

Linear and quadratic octahedral wavelets on the sphere for angular discretisations of the Boltzmann transport equation.

Buchan AG, Pain CC, Eaton MD, Smedley-Stevenson RP and Goddard AJH. *Annals of Nuclear Energy* vol. 32, (11) 1224-1273.
