

Dr Roberto Volpe
PhD

School of Engineering and Materials Science
Queen Mary University of London
Mile End Road
London E1 4NS

tel: +44 (0)20 7882 7748
email: r.volpe@qmul.ac.uk web: www.sems.qmul.ac.uk/r.volpe

2024

Role of reaction parameters in hydrothermal carbonization with process water recirculation: Hydrochar recovery enhancement and energy balance.

Picone A, Volpe M, Malik W, Volpe R and Messineo A. *Biomass and Bioenergy* vol. 181, Elsevier.

Co-hydrothermal carbonization with process water recirculation as a valuable strategy to enhance hydrochar recovery with high energy efficiency.

Picone A, Volpe M, Codignole Lùz F, Malik W, Volpe R and Messineo A. *Waste Management* vol. 175, 101-109. Elsevier.

2023

Synthesis of a Graphene-Encapsulated Fe₃C/Fe Catalyst Supported on Sporopollenin Exine Capsules and Its Use for the Reverse Water-Gas Shift Reaction.

Malik W, Victoria Tafoya JP, Doszczeczko S, Jorge Sobrido AB, Skoulou VK, Boa AN, Zhang Q, Ramirez Reina T and Volpe R. *Acs Sustainable Chemistry and Engineering*. American Chemical Society.

Highly ordered CaO from cuttlefish bone calcination for the efficient adsorption of methylene blue from water.

Tagar U, Volpe M, Messineo A and Volpe R. *Frontiers in Chemistry* vol. 11, 1132464-1132464. Frontiers Media.

Recovery of metals and valuable chemicals from waste electric and electronic materials: a critical review of existing technologies.

Gulliani S, Volpe M, Messineo A and Volpe R. *Rsc Sustainability* vol. 1, (5) 1085-1108. Royal Society of Chemistry (Rsc).

2022

Potential pitfalls on the scalability of laboratory-based research for hydrothermal carbonization.

Volpe M, Picone A, Luz FC, Mosonik MCA, Volpe R and Messineo A. *Fuel: The Science and Technology of Fuel and Energy* vol. 315, Elsevier.

Alkaline pretreatment of walnut shells increases pore surface hydrophilicity of derived biochars.

Barr MR, Forster L, D'Agostino C and Volpe R. *Applied Surface Science* vol. 571, Elsevier.

2021

Unlocking the potential of biofuels via reaction pathways in van Krevelen diagrams.

Lozano DCP, Jones HE, Reina TR, Volpe R and Barrow MP. *Green Chemistry*. Royal Society of Chemistry.

A molecular investigation on lignin thermochemical conversion and carbonaceous organics deposition induced catalyst deactivation.

Chen C, Volpe R and Jiang X. *Applied Energy* vol. 302,.

Enhancement of energy and combustion properties of hydrochar via citric acid catalysed secondary char production.

Volpe M, Luz FC, Saha N, Reza MT, Mosonik MC, Volpe R and Messineo A. *Biomass Conversion and Biorefinery. Springer (Part of Springer Nature)*.

Identifying Synergistic Effects between Biomass Components during Pyrolysis and Pointers Concerning Experiment Design.

Barr MR, Volpe R and Kandiyoti R. *Acs Sustainable Chemistry & Engineering*.

Liquid Biofuels from Food Crops in Transportation A Balance Sheet of Outcomes.

BARR M, Volpe R and Kandiyoti R. *Chemical Engineering Science*.Elsevier.

Towards a mechanistic understanding of particle shrinkage during biomass pyrolysis via synchrotron X-ray microtomography and in-situ radiography.

Barr MR, Jervis R, Zhang Y, Bodey AJ, Rau C, Shearing PR, Brett DJL, Titirici M and Volpe R. *Scientific Reports* vol. 11, (1).Nature Publishing Group.

In situ observation of the evolution of polyaromatic tar precursors in packed-bed biomass pyrolysis.

Mosonik MC, Volpe R, Ezenwajiaku C, Talibi M and Balachandran R. *Reaction Chemistry & Engineering* vol. 6, (9) 1538-1547.Royal Society of Chemistry (Rsc).

2020

Cationic Dye Adsorption on Hydrochars of Winery and Citrus Juice Industries Residues: Performance, Mechanism, and Thermodynamics.

Saha N, Volpe M, Fiori L, Volpe R, Messineo A and Reza MT. *Energies* vol. 13, (18) 4686-4686.Mdpi Ag.

On the suitability of thermogravimetric balances for the study of biomass pyrolysis.

Barr MR, Volpe M, Messineo A and Volpe R. *Fuel* vol. 276, 118069-118069.Elsevier Bv.

Reactivity of cellulose during hydrothermal carbonization of lignocellulosic biomass.

Volpe M, Messineo A, Mäkelä M, Barr MR, Volpe R, Corrado C and Fiori L. *Fuel Processing Technology* vol. 206,. Elsevier.

Evaluation of the optimal activation parameters for almond shell bio-char production for capacitive deionization.

Maniscalco MP, Corrado C, Volpe R and Messineo A. *Bioresource Technology Reports* vol. 11,.

Augmented Leaching Pretreatments for Forest Wood Waste and Their Effect on Ash Composition and the Lignocellulosic Network.

Taylor MJ, Alabdrabalameer HA, Michopoulos AK, Volpe R and Skoulou V. *Acs Sustainable Chemistry & Engineering*.American Chemical Society (Acs).

Biomethane recovery from olive mill residues through anaerobic digestion: A review of the state of the art technology.

Messineo A, Maniscalco MP and Volpe R. *Science of The Total Environment* vol. 703,.Elsevier.

2019

Free radicals formation on thermally decomposed biomass.

Volpe R, Bermudez Menendez JM, Ramirez Reina T, Volpe M, Messineo A, Millan M and Titirici MM. *Fuel* vol. 255,.

Influence of reactor design on product distributions from biomass pyrolysis.

Barr M, Volpe R and Kandiyoti R. *Acs Sustainable Chemistry & Engineering*.American Chemical Society (Acs).

2018

Synergistic Effects between Lignin and Cellulose during Pyrolysis of Agricultural Waste.

Volpe R, Zabaniotou AA and Skoulou V. *Energy & Fuels* vol. 32, (8) 8420-8430.American Chemical Society (Acs).

Assessing Methane Emission and Economic Viability of Energy Exploitation in a Typical Sicilian Municipal Solid Waste Landfill.

Di Trapani D, Volpe M, Di Bella G, Messineo A, Volpe R and Viviani G. *Waste and Biomass Valorization* 1-12.

Spatially resolved spectral determination of polysaccharides in hydrothermally carbonized biomass.

VOLPE R, Mäkelä M, Volpe M, Fiori L and Dahl O. *Green Chemistry*.Royal Society of Chemistry.

2017

Catalytic Effect of Char for Tar Cracking in Pyrolysis of Citrus Wastes, Design of a Novel Experimental Set Up and First Results.

VOLPE R, Messineo S, Volpe M and Messineo A. *Chemical Engineering Transactions* vol. 50, 181-186. *Italian Association of Chemical Engineering - Aidic*.

An Innovative Adaptive Control System to Regulate Microclimatic Conditions in a Greenhouse.

Nicolosi G, Messineo A and VOLPE R. *Energies* vol. 10, (5) 722-722.

Evolution of chars during slow pyrolysis of citrus waste.

Volpe R, Menendez JMB, Reina TR, Messineo A and Millan M. *Fuel Processing Technology* vol. 158, 255-263.

2016

Upgrading of Olive Tree Trimmings Residue as Biofuel by Hydrothermal Carbonization and Torrefaction: a Comparative Study.

VOLPE R, Volpe M, Fiori L and Messineo A. *Chemical Engineering Transactions* vol. 50, 13-13. *Italian Association of Chemical Engineering - Aidic*.

Energy Saving in Water Distribution Network through Pump as Turbine Generators: Economic and Environmental Analysis.

De Marchis M, Milici B, Volpe R and Messineo A. *Energies* vol. 9, (11) 877-877.

Technical and Economical Assessment of Biomass Potential for Power Production: A Study in the South of Italy.

Messineo A, Bonasera D, Volpe R, Messineo S and Marvuglia A. *Journal of Environmental Accounting and Management* vol. 4, (3) 287-299.

Carbon reactivity in biomass thermal breakdown.

Volpe R, Messineo A and Millan M. *Fuel* vol. 183, 139-144.

2015

Carbon Footprint of Tree Nuts Based Consumer Products.

Volpe R, Messineo S, Volpe M and Messineo A. *Sustainability* vol. 7, (11) 14917-14934. *Mdpi Ag*.

Upgrade of citrus waste as a biofuel via slow pyrolysis.

Volpe M, Panno D, Volpe R and Messineo A. *Journal of Analytical and Applied Pyrolysis* vol. 115, 66-76. *Elsevier*.

Assessment of olive wastes as energy source: pyrolysis, torrefaction and the key role of H loss in thermal breakdown.

Volpe R, Messineo A, Millan M, Volpe M and Kandiyoti R. *Energy* vol. 82, 119-127. *Elsevier*.

2014

Sustainable Production of Bio-Combustibles from Pyrolysis of Agro-Industrial Wastes.

Volpe M, D Anna C, Messineo S, Volpe R and Messineo A. *Sustainability* vol. 6, (11) 7866-7882. *Mdpi*.

2013

Numerical Solution of Foodstuff Freezing Problems Using Radial Basis Functions.

La Rocca A, La Rocca V, Messineo A, Morale M, Panno D and Volpe R. *Advanced Science Letters* vol. 19, (3) 1044-1047. *American Scientific Publishers*.

2012

Collection of Thermal Energy Available from a Biogas Plant for Leachate Treatment in an Urban Landfill: A Sicilian Case Study.

Messineo A, Freni G and Volpe R. *Energies* vol. 5, (10) 3753-3767. *Mdpi*.

Ligno-cellulosic biomass exploitation for power generation: A case study in sicily.

Messineo A, Volpe R and Marvuglia A. *Energy* vol. 45, (1) 613-625.Elsevier.

Evaluation of Net Energy Obtainable from Combustion of Stabilised Olive Mill By-Products.

Messineo A, Volpe R and Asdrubali F. *Energies* vol. 5, (5) 1384-1397.Mdpi.

Technical and Economical Feasibility of Biomass Use for Power Generation in Sicily.

Messineo A, Panno D and Volpe R. *International Journal of Agricultural and Environmental Information Systems* vol. 3, (1) 40-50.Igi Global.
